HUYNH TIEN LOI

Frontend Developer Intern

Ho Chi Minh City, Vietnam | justasimplemutt@gmail.com | github.com/ShiverKane

Summary

Final year Information Technology student at the University of Information Technology with hands-on experience building web and mobile applications using JavaScript, React Native, TypeScript, and modern frontend technologies. Experienced in developing responsive interfaces, reusable components, SPA architecture, authentication flows, and REST API integrations. Strong foundation in software engineering, databases, and full-stack development. Seeking a Frontend Developer Intern position to contribute to real-world products and further strengthen frontend development skills.

Education

University of Information Technology, VNU-HCM 2023 – 2027

Bachelor of Information Technology

- GPA: **7.82/10**
- Relevant Coursework: Data Structures and Algorithms, Database Systems, Software Engineering, Web Development, Computer Networks

Projects

AMA Mobile – Attendance Management API 2025 – 2026

Frontend / Mobile Developer | React Native, TypeScript, Expo

- Independently developed the mobile application using React Native, TypeScript, Expo, and Expo Router, implementing authentication, attendance tracking, history, notifications, and account management.
- Integrated native device capabilities including camera and GPS location for selfie-based attendance verification and location-aware check-in/check-out workflows.
- Built a centralized API layer with typed request/response models and session management for communication with backend services.
- Implemented role-based interfaces for employees and management, including attendance dashboards, reports, employee management, and device monitoring.

Rook – Used Books Marketplace System 2026

Frontend Developer | JavaScript, HTML/CSS, Tailwind CSS, FastAPI, Supabase

- Developed a responsive used-books marketplace with browsing, search and filtering, listing management, authentication, profiles, seller dashboard, and user messaging.
- Designed a modular frontend architecture with a custom SPA router, page-specific modules, reusable UI utilities, and a centralized API layer.
- Integrated frontend services with FastAPI and Supabase APIs, implementing authentication, token refresh, image uploads, and CRUD operations for marketplace data.
- Optimized listing image loading using lazy loading, asynchronous decoding, and prioritized loading for above-the-fold images.

Certificates

- IELTS Academic: Overall Band **7.5**

Skills

- **Frontend:** JavaScript, TypeScript, React, React Native, Next.js, HTML5, CSS3, Tailwind CSS, Vite
- **Web Development:** Responsive Design, SPA Architecture, REST API Integration, Authentication, Reusable Components, Git, GitHub
- **Backend:** Node.js, Express.js, FastAPI
- **Database:** PostgreSQL, MongoDB, MySQL, Oracle
- **Tools:** Expo, Docker, ESLint, Supabase, Ethers.js

Languages

- **Vietnamese:** Native
- **English:** IELTS Academic 7.5
