Hoang Dinh Trung

+84 912 345 678 | hoang.dinhtrung.dev@gmail.com | Ho Chi Minh City, Vietnam

Aspiring Network & IT Infrastructure Specialist with hands-on experience in network design, system configuration, and security monitoring across real-world projects. Proficient in tools like pfSense, OpenWRT, Checkmk, and Ansible, with growing exposure to DevOps and automation-driven workflows to build scalable, secure systems and grow into a future IT leader.

EDUCATION

Computer Networks and Communications Jan 2022 - Jun 2026
University of Information Technology VNU-HCM **GPA: 3.4 of 4.0**

SKILLS

Networking: Subnetting, VLANs, OSPF, RIP, NAT, IPv4, TCP/IP, DNS, DHCP, SNMP, SSH, ARP
System & Network Tools: pfSense, OpenWRT, FreePBX, Active Directory, Kubernetes
Security & Monitoring: Snort (IDS/IPS), Wireshark, Checkmk, Nessus
Virtualization: VirtualBox, OpenStack, Proxmox
Automation: Ansible, Terraform, Infrastructure-as-Code (IaC)
Soft Skills: Leadership, Communication, Presentation, English Proficiency, Time Management, Collaboration, Adaptability

WORK EXPERIENCE

Network Intern **Jun 2025 - Apr 2026**
DTG Corp Ho Chi Minh City

- Deployed and configured enterprise software for clients at EVN SPCIT, strengthening hands-on experience in enterprise IT deployment and client-facing technical support.
- Designed and implemented a Cisco/Juniper network lab with VLANs, DHCP, and trunking while configuring FortiGate and Sophos firewalls with Site-to-Site VPN and firewall rules, building solid foundations in network architecture, traffic segmentation, and enterprise security management.

PROJECTS

Energy-Aware Edge Scheduling Agent **Mar 2026 - May 2026**

- Designed an intelligent edge-computing agent that uses solar-energy data, battery status, queue pressure, and workload conditions to make adaptive task scheduling decisions, improving skills in reinforcement learning environment design, reward engineering, and real-world edge resource optimization.

Ansible Automation on Docker Configuration **Mar 2026 - May 2026**

- Built a CIS Docker Benchmark automation framework in Ansible covering 60+ controls across 4 sections, with JSON and Excel compliance reports generated per host.

IT Support System Simulation - Capstone Project **Jan 2025 - Jun 2025**

- Built a simulated IT helpdesk using FreePBX and RustDesk with CID-based client matching and GPO-managed remote access, strengthening skills in VoIP, Windows Server administration, and enterprise troubleshooting workflows.

ORGANIZATIONAL & VOLUNTEER EXPERIENCE

Collaborator, Host **Dec 2022 - Present**
UIT Student Ambassador

- Advised students & parents on admissions, hosted seminars and recruitment events, and represented UIT through strong communication and audience engagement skills.

Developer Member **Dec 2022 - Present**
WebDev Studio

- Built a website through hands-on frontend and backend learning, while hosting and supporting Webdev events.

NAB Talent Connect Program **Nov 2025 - Apr 2026**
National Australia Bank

- Selected as one of 21 student ambassadors to strengthen NAB Vietnam's employer brand through creative content creation, cross-university collaboration, and community engagement initiatives.

AWARDS

Kumho Asian University Scholarship by Kumho Asian University **Sep 2025**
Awarded for outstanding academic achievement and perseverance in overcoming difficult circumstances.

EVN Scholarship for Excellent Study by EVN **Aug 2025**
Awarded for achieving good results in studies and training.

CERTIFICATIONS

IELTS Academic - Overall Band Score: 6.0 **Mar 2022**
